Color Outside Our Lines

There are a lot of colors in this world and while we're excited about the selection we offer, we understand that you may be inspired by something personal or just want to step outside our palette. A wall in a friend's house, the color of your grandparent's shutters, a comfortable piece of furniture...whatever it is that impresses you, is important to us. So you have the freedom here to say, "This is it! This is the color for me."

With UltraCraft's new Custom Paint Color Program, you can have any color you want. If you can bring us a paint swatch or a sample of the item you want to match, our Color Masters will produce a custom paint for you. Then we'll produce a full-sized sample door in the style you choose so you can take it home and get to know it a little better before ordering your cabinets.

STEP
1

Show Us Your Color

Give your UltraCraft Designer the paint name and number from a major paint manufacturer or any 3" x 3" sample of the item bearing

the color you want to match. Some materials such as textiles and glossy finishes can be hard to match exactly, but we'll show you how close we can get. Note that we will not be able to return your swatch or sample.

STEP
2

Specialty Finish Options

Consider adding a specialty finish to your custom paint color for a unique tone, texture or hue.

Sheen: Choose from either our Standard Sheen or more-subtle Low Sheen; each achieved through a protective topcoat that gives your cabinets the look of today's fine furniture.

Aged Distressing: Available only with our Low Sheen finish, this process involves randomly striking your doors with special tools, causing dents and stress cracks. Aging is a hand-applied technique and will be slightly different on each door.

Glaze: A slightly tinted finish wiped onto, then off of, your custom-painted doors, leaves the glaze collected in the crevices, presenting a slightly antiqued patina. Choose from Brown, Mocha or Nickel and consider combining a glaze with our Aged Distressing technique for a weathered or worn look.

Linen: For a finish that mimics the pattern of linen, glaze is hand-brushed onto your custom-painted door.

STEP
3

Custom Door Sample

At this point, we put together all of your choices—door style, custom paint color, glaze and distressing finishes—and send you a full size custom-finished door so you can be sure it's exactly what you want before you order.

STEP
4

Order Your Cabinets!

Once you've approved your sample door, your Designer will order your new cabinets and work out delivery and installation with you. UltraCraft will keep a portion of your custom paint for four months for future orders.

Get started today. Defining your very own cabinet color is easy, affordable and liberating!

Design Freedom

UltraCraft gives you and your designer more tools, more flexibility and more liberty to ensure you get the kitchen or bath that meets your wants, needs and budget. Combine these features with the benefits inherent in full-access construction, and you have more storage and an overall better value.
